

juskel — QuickBooks Financial Profile Gap Analysis

Accounting data requirements (Financial Profile.pdf) vs QuickBooks Online API feasibility, live sandbox validation, and current juskel manual collection (Figma / API).

Document date: 2026-09-02

Evidence: Intuit sandbox company 9341457727779039 · accounting_probe.py · test.sh all (Sep 2026)

Scope: Accounting only (Open Banking is a separate dataset per product spec).

Executive summary

The product vision is: SMEs provide a **minimum manual baseline** (or connect integrations); juskel derives richer intelligence without asking for ratios or trends. QuickBooks can supply **most CORE accounting fields** when extended beyond today's MVP sync (P&L + accounts only). The current app collects **5 band dropdowns** plus optional evidence — not the PDF's 8 manual questions. Today's API persists integration output as **bands + metadata JSON**, not the full Layer-2 metric model.

1. Product data flow (Figma + API)

Path	User action	What populates the DB today
Manual	Select 5 bands + upload evidence per band (Figma)	funding.FinancialProfiles (5 enum bands) + funding.FinancialEvidence (files, no questionKey)
QuickBooks	Connect accounting OAuth	Same 5 bands (mapped from P&L/accounts) + IntegrationConnections (tokens, realmId, ProviderMetadataJson snapshot)
Open Banking	Connect bank OAuth	Same 5 bands (from balances) — PDF intends separate cash-behaviour dataset
Xero	Connect OAuth	Tokens only — no financial sync yet

2. PDF minimum manual baseline (8 questions) vs juskel today

#	PDF manual question	PDF section	juskel manual field today	Gap
1	Latest annual turnover	Financial performance	annualRevenueBand (band)	No £ amount; band proxy only
2	Profitable? (break-even / loss)	Financial performance	ebitdaBand (margin bands)	Not yes/no/break-even
3	Profit or loss £ for that year	Financial performance	—	Not collected manually
4	Cash held across business accounts (£)	Cash & borrowing	cashReserves (months band)	Months not £ cash
5	Has outstanding borrowing? (Y/N)	Cash & borrowing	—	Not collected; debt band only
6	Outstanding debt £ (if Yes)	Cash & borrowing	existingDebtBand (band)	No Y/N gate; band only
7	3-month cash-flow direction	Cash flow	—	PDF: derive from OB if connected; not in API
8	Latest financial year end date	Financial performance	—	Not on FinancialProfile
—	(extra in juskel)	—	avgMonthlyRevenue band	Not in PDF minimum set

3. PDF CORE accounting fields — QuickBooks achievability

Feasibility from live sandbox probe (2026-01-01 to 2026-12-31). **Direct** = QBO report/field. **Derive** = juskel computes from QBO data. **Partial** = available but chart-dependent or parser refinement needed. **Unavailable** = not in QBO API.

Field	PDF	QB feasibility	Sandbox result	QBO source
Annual turnover / revenue	CORE	Direct	Available — USD 10,200.77	P&L Total Income
Operating profit / loss	CORE	Direct	Available — USD 4,558.46	P&L Net Operating Income
Cash / cash equivalents	CORE	Direct	Available — USD 2,001.00	Bank accounts / Balance sheet
Accounts receivable	CORE	Direct	Available — USD 5,281.52	AgedReceivables / A/R accounts
Accounts payable	CORE	Direct	Available — USD 1,602.67	AgedPayables / A/P accounts
Current assets	CORE	Direct	Available — USD 9,941.29	Balance sheet
Current liabilities	CORE	Direct	Available — USD 6,131.33	Balance sheet
Total assets	CORE	Direct	Available — USD 23,436.29	Balance sheet
Total liabilities	CORE	Direct	Available* — see note	Balance sheet (parser must target Total Liabilities line)
Net assets / equity	CORE	Direct	Available — USD -7,695.04	Balance sheet Equity
Outstanding debt / borrowings	CORE	Partial	Available — USD 29,528.66	Loan Payable + Notes Payable + credit cards (account types)
Latest accounting period	CORE	Direct	Available — 2026-12-31	P&L header + CompanyInfo fiscal year
Prior comparative period	CORE*	Direct	Empty for 2025 (company started Aug 2026)	Second P&L window
Gross profit	Supporting	Direct	Available — USD 9,795.77	P&L GrossProfit
Net profit / loss	CORE	Direct	Available — USD 1,642.46	P&L NetIncome
Operating cash flow (statement)	Supporting	Direct	Available — USD 1,896.02	CashFlow report (not Open Banking)
EBITDA	CONDITIONAL	Partial	Not derived in probe	No native line — derive from Net Income + D&A/interest/tax if coded
Finance / debt commitments	CONDITIONAL	Unavailable	N/A	No structured future-commitment API

* Total liabilities parser in probe matched L+E total in one case; production parser should read explicit Total Liabilities (sandbox BS: USD 31,131.33).

4. PDF DERIVED accounting intelligence — QuickBooks achievability

Derived metric (PDF)	Formula	QB feasibility	Sandbox result	Blocked when
Working capital	Current assets – current liabilities	Derive	Available — USD 3,809.96	—
Current ratio	Current assets ÷ current liabilities	Derive	Available — 1.62	—
Profit margin	Net income ÷ revenue	Derive	Available — 16.1%	—
Debt-to-assets / leverage	Total liabilities ÷ total assets	Derive	Available — 1.00*	Needs correct liabilities line
Revenue trend / growth	YoY revenue change	Derive	Empty	Prior year NoReportData (new company)
Profitability trend / movement	YoY net income change	Derive	Partial / empty	Prior year NoReportData

Derived metric (PDF)	Formula	QB feasibility	Sandbox result	Blocked when
Revenue trend (PDF CORE-derived)	Growth/stability signal	Derive	Empty	Needs 2+ years of books

5. What QuickBooks does NOT replace (per PDF architecture)

Dataset	Owner	Examples	In QuickBooks?
Accounting performance & position	QuickBooks / Xero	Revenue, P&L, balance sheet, debtors/creditors	Yes (extended sync)
Cash-flow behaviour & liquidity stress	Open Banking	Inflows/outflows, avg balance, failed payments, volatility	No — use TrueLayer transactions
SME minimum manual baseline	User + evidence	8 headline questions when not connected	No — user input
Provenance & confidence	juskel platform	source, period, retrievedAt, integration vs self-declared	Partial — metadata blob today
Finance commitments (future)	—	Scheduled debt, covenants	Unavailable in QBO
3-month cash-flow direction (manual Q7)	User or OB	More in than out?	OB path, not accounting P&L

6. Gap matrix: PDF → QuickBooks → juskel manual → API persistence

PDF need	QB achievable?	Auto-fills manual?	In 5-band API?	Persisted as £ metric?
Turnover	Yes	Yes (band)	annualRevenueBand	No — band + QB JSON only
Profitable Y/N	Yes (from net income sign)	Partial via ebitdaBand	ebitdaBand	No
Profit £	Yes	Could auto-fill	No field	No
Cash £	Yes	Partial (months band)	cashReserves	No
Debt Y/N + £	Partial	Partial (debt band)	existingDebtBand	No
FY end date	Yes	Could auto-fill	No field	No
Cash-flow direction	No (use OB)	No	No field	No
A/R, A/P, WC, ratios	Yes (derive)	Not in UI yet	No	No
Evidence per answer	N/A	Figma per band	evidence[] unkeyed	Files only

7. Recommended implementation phases

Phase A — Align manual baseline with PDF

Add: latestFinancialYearEnd, isProfitable, profitLossAmount (or band), hasBorrowing, cashFlowDirection; decide £ cash vs months band.

Phase B — Extend QuickBooks sync

Fetch Balance Sheet, Aged AR/AP, Cash Flow, prior-year P&L; persist Layer-2 metrics table; fix liabilities parser.

Phase C — Map QB → manual fields

On connect, auto-populate PDF-aligned fields and bands; set bandsLockedByIntegration; store provenance per field.

Phase D — Keep Open Banking separate

Do not merge OB into same bands as accounting; OB feeds cash-behaviour fields per PDF.

Phase E — Evidence linkage

Add questionKey on financial evidence (like sustainability) for audit trail.

8. Sandbox evidence snapshot (validated)

Metric	Value (USD)	Status
Company	Sandbox Company US c03c	—
Company start	2026-08-16	—
Total income (2026 FY window)	10,200.77	Available
Net operating income	4,558.46	Available
Net income	1,642.46	Available
Cash (bank accounts)	2,001.00	Available
Accounts receivable	5,281.52	Available
Accounts payable	1,602.67	Available
Current assets	9,941.29	Available
Current liabilities	6,131.33	Available
Working capital	3,809.96	Derived
Total assets	23,436.29	Available
Loan-type debt (accounts)	29,528.66	Partial

Metric	Value (USD)	Status
Operating cash flow (statement)	1,896.02	Available
Prior-year P&L	NoReportData	Empty
Finance commitments	—	Unavailable

Appendix — QBO endpoints to add in production sync

companyinfo · ProfitAndLoss (current + prior) · BalanceSheet · AgedReceivables · AgedPayables · CashFlow · query Account (paginated). Regenerate probe: `cd api/sandbox/quickbooks && ./test.sh accounting-assessment`
